EXPERIENCE

Web Developer — Acelacio'n Industries

January 2026 – Present | Telangana

[acelacion.com](#)

- Strengthened Acelacio'n's digital presence by developing a responsive corporate website that established a professional online presence and communicated the company's business, capabilities, and offerings.
- Improved user engagement and cross-device experience by implementing interactive UI animations with GSAP and ScrollTrigger while optimizing page performance and responsiveness.
- Enhanced website discoverability and accessibility through semantic HTML, structured page architecture, SEO-friendly practices, and a properly configured robots.txt file.
- Translated stakeholder requirements into scalable web features and delivered the project on schedule through close collaboration with business stakeholders.

Core Member — Sibilize Hospitality Private Limited

February 2023 – December 2023 | Maharashtra

- Generated revenue for the startup by connecting college students with suitable accommodation across a network of 30+ partnered properties.
- Prospected and engaged with 50+ landlords and property owners, converting leads into 30+ property partnerships through relationship building, negotiation, and partnership agreements.
- Conducted market research to identify high-demand student locations, accommodation preferences, and property opportunities, supporting expansion of the startup's student accommodation marketplace.
- Managed property onboarding and furnishing while coordinating with landlords, owners, and students to ensure properties met student requirements and were ready for occupancy.

PROJECTS

Open Source Developer — Remove YouTube Distraction (40+ Stars)

2026 – Present

[GitHub Repo](#)

- Developed and maintained a custom uBlock Origin filter list to create a distraction-free YouTube experience without requiring an additional browser extension.
- Engineered custom filters to hide Shorts, advertisements, promotional banners, comments, infinite scrolling, notification elements, and other engagement-focused UI components.
- Continuously updated filters to adapt to YouTube's evolving UI and maintain compatibility and reliability across platform changes.

Open Source Contributor — Remove YouTube Suggestions (500+ Stars)

July 2025 – September 2025

[GitHub Repo](#)

- Refactored and enhanced CSS selectors for hiding Shorts across search results, eliminating brittle DOM dependency patterns.
- Collaborated with the maintainer through detailed code reviews and iteratively applied feedback to optimize extension reliability.

Doctor Portfolio & Appointment Platform

September 2024 – June 2025

[Live Demo](#)

- Engineered a full-stack doctor portfolio and booking web application using React, Node.js (Express), and MongoDB featuring dynamic scheduling and contact management.
- Deployed production builds leveraging Vercel (Frontend), Render (Backend), and MongoDB Atlas cloud database.

TECHNICAL SKILLS

- Languages:** Python, C++, JavaScript, SQL
- Web Development:** React.js, Node.js, Express.js, HTML, CSS, GSAP
- Tools & Databases:** Git, GitHub, MongoDB, Vercel, WordPress

EDUCATION

Bachelors of Technology in Electronics & Communication Engineering

2020 – 2024

Maharaja Surajmal Institute of Technology (GGSIPU), New Delhi

8.44 CGPA

Class XII — Army Public School, Delhi Cantt, New Delhi

2019 | **86.2%**

Class X — Army Public School, Delhi Cantt, New Delhi

2017 | **9.4 CGPA**

CERTIFICATIONS

J.P. Morgan Software Engineering Virtual Experience

July 2024

[Certificate](#)

- Set up a local dev environment by downloading the necessary files, tools, and dependencies.
- Fixed broken files in the repository to make the web application output correctly.
- Used JPMorgan Chase's open source library called Perspective to generate a live graph that displays a data feed in a clear and visually appealing way for traders to monitor.

Goldman Sachs Software Engineering Virtual Experience Program

August 2023

[Certificate](#)

- Completed a job simulation as a Goldman Sachs governance analyst, assessing IT security and suggesting improvements.
- Identified the use of an outdated password hashing algorithm by cracking passwords using Hashcat.
- Wrote a memo summarizing proposed improvements to password protection, including increasing minimum password length and adopting a dedicated hashing algorithm.
